Client Notes for Coco Magana for 06/13/09:

Coco's Weight: 14.6 Lbs

Reprint Client Notes online up to 30 days past your visit at www.thefamilyvet.net.

Your (case-sensitive) password is: Magana

Coco gained about 4 pounds in the past 1.5 years; she weighs 14.6 pounds which is still ok but try not to have her gain much more. Her ears and eyes are fine; no sign of infection. Teeth are good. Heart and lungs are clear. Abdomen palpated normal. Sutures from the spay palpable (normal).

We updated her distemper-parvo and bordetella vaccines. Let us know if any lethargy or soreness around her shoulders. Her rabies is still current until 2011. We don't recommend corona vaccines so do not have it to update her. She does not need the corona vaccine.

We also trimmed her nails.

Unless problems, we will see her in a year for her check-up..tnt
