### ***Client Notes for Diana Zaid for 06/12/09:***

***Diana's Weight: 22.5 Lbs***

Reprint Client Notes online up to 30 days past your visit at [www.thefamilyvet.net](http://www.thefamilyvet.net).

Your (case-sensitive) password is: Zaid

Diana gained a little over a pound since October; she looks good at 22.5 pounds today. Her ears and eyes are fine; no infection. Teeth look good; only mild dental tartar. Continue brushing her teeth at least 2-3 times a week; focus on her canines and upper premolars.

Heart murmur is unchanged since last year; lungs are clear. Monitor and let us know if any coughing or exercise intolerance.

Abdomen palpated normal.

Her hips and knees crackles on palpation. We know she has significant arthritis in her hips from previous radiographs but she is moving well today. Let us know if any lameness or problems.

We submitted blood and urine for her senior screen. We should have results this weekend.

Her vaccines are still current until September.

Unless problems or otherwise indicated by lab results, we will see her in 3 months for the bordetella vaccine..tnt
