Client Notes for Dip Fritzel for 06/13/09:

Dip's Weight: 12.69 Lbs

Reprint Client Notes online up to 30 days past your visit at www.thefamilyvet.net.

Your (case-sensitive) password is: Fritzel

Dip gained another 4.5 pounds in the past 2 months; she looks good at 12.69 pounds. Try not to have her gain more weight though; keep her between 12 to 12.75 pounds for now.

Her ears and eyes are fine; no sign of infection.

She still has her upper canine puppy teeth. Since she has been losing teeth, we can wait a little longer. If they don't fall out in the next month or 2, she should have them extracted.

Heart and lungs are clear.

Abdomen palpated normal.

Skin looks great. The scrapes between her eyes / nose were negative for demodex.

Continue with the ivermectin until finished (or for another week).

Monitor and call us if recurrence of hairloss.

We gave the rabies vaccine on her right hip. Let us know if any lethargy or soreness.

Let us know if she still has her puppy canines in 2 months. OK to bring her in for us to check if not sure..tnt
