Foxy looks great at 10.69 pounds. Her ears and eyes are fine; no sign of infection. Moderate dental tartar, especially her upper premolars. We will schedule her dental cleaning for the end of July.

Heart and lungs are clear.

Abdomen and joints palpated normal.

No fleas found.

We updated her FVRCP and FeLV vaccines on her left hip. Let us know if any lethargy or soreness around her hips.

We submitted her blood for the senior wellness panel and in preparation for her dental cleaning. We should have results tomorrow evening. Unless problems or otherwise indicated by lab results, we can schedule her dentistry on the last Wed or Fri of July..tnt
