## **GEORGIA**

Georgia looks good at 32.9 pounds. Her ears have black debris and moderate inflammation, likely from her allergies. She has not have developed an actual infection like before yet. We will add on an anti-inflammatory topical medication to control the inflammation and hopefully, avoid another infection.

Rx: Zymox Otic with HC #30 ml --- Fill ear canals as directed once daily for 2 weeks. Massage based on ears and wipe out excess..tnt

\*\*\* Do not clean her ears with an eare cleaner while under treatment. OK to wipe out excess with the cotton balls as shown.

We already applied today's treatment; next treatment due tomorrow.

Call us if any problems or concerns.

Increase her chlorpheniramine 4mg to 1/2 tablet twice daily. If still itchy, she can get up to 1 tablet twice daily for her allergies.

We also updated her distemper-parvo vaccine on her left shoulder. Let us know if any lethargy or soreness.

Unless problems, schedule a treatment appointment in 2 weeks for us to check her ears. Do not apply the Zymox Otic the day of the appointment..tnt

## **BEAU**

Beau lost a pound in the past month; he weighs 41.9 pounds today. Both of his anal glands were full..tnt
