Client Notes for Grenuda & Rocky Dorado for 06/14/09:

Reprint Client Notes online up to 30 days past your visit at www.thefamilyvet.net.

Your (case-sensitive) password is: Dorado

ROCKY

Rocky lost a little weight since April but still looks good at 7 pounds. His ears and eyes are fine; no sign of infection. Teeth are good. Heart and lungs are clear. Abdomen and joints palpated normal. We gave the distemper-parvo vaccine. Let us know if any lethargy or soreness around his left shoulder

Both he and Grenuda have a lot of fleas. Use topical flea control like Advantage or Frontline Plus as discussed.

Unless we see him sooner for his neuter, next visit in a year.

GRENUDA

Grenuda weighs 8.9 pounds and is in good body condition. Her ears and eyes are fine; no sign of infection. Teeth are good. Heart and lungs are clear. Abdomen and joints palpated normal. We gave the distemper-parvo vaccine. Let us know if any lethargy or soreness around her left shoulder.

Unless problems, or we see her sooner for her spay, next exam in a year..tnt
