Jackee looks great at 14.4 pounds. She is in excellent body condition.

Her ears and eyes are fine; no sign of infection. Teeth are good. Heart and lungs are clear. No fleas found. Abdomen and joints palpated fine.

We updated her rabies and bordetella vaccines as requested for boarding. Let us know if any lethargy or soreness around her shoulders.

Unless problems, schedule a treatment appointment in 2-3 weeks for her distemper-parvo vaccine..tnt
