Your (case-sensitive) password is: Deeds

Mellita gained several more ounces and is at 6.69 pounds. That's still not as much as we expect if her thyroid level is normal. We will very likely need to increase the methimazole. We submitted her blood to recheck the level and should have results by Wednesday. Continue with the methimazole 1/2 tablet twice daily for now. Based on results, we may need to increase to 1 twice daily.

Please call on Wednesday for results and to pick-up methimazole refill..tnt
