Client Notes for Sampson Brown for 06/20/09: Sampson's Weight: 75.3 Lbs

Reprint Client Notes online up to 30 days past your visit at www.thefamilyvet.net.
Your (case-sensitive) password is: Brown

Sampson has a large soft subcutaneous mass on his the posterior aspect of his left elbow. It measures 5.5 mm by 4 mm. We aspirated the mas -- no fluid noted; it is a soft but solid mass. Samples of the aspiration are submitted to the lab for analysis. We should have the results by Wednesday. Based on results, we will decide on whether surgery is needed.

Please call or email on Wednesday for results. Contact us sooner if mass gets larger or any problems..tnt
