Your (case-sensitive) password is: Harvey

Shadow is maintaining her weight at 76 pounds. Her lick granuloma is healing well on her right front paw. OK to discontinue the Tresaderm Drops (keep it in the fridge in case needed again). Monitor the area. As long as Chewey does not lick at the area, the hair should continue to regrow. She will likely have some thickening there from the scarring.

Both of her anal glands were full; we emptied them both.

Let us know if any problems or concerns..tnt
