Client Notes for Squeaky Luckey for 02/27/10: Squeaky's Weight: 6.81 Lbs

Reprint Client Notes online up to 30 days past your visit at www.thefamilyvet.net.

Your (case-sensitive) password is: Luckey

Squeaky looks good today but she is still losing weight, about 4 ounces in the past 5 weeks. She weighs 6.81 pounds today. We will refill the methimazole gel for her hyperthyroidism. The refill will be from Central Compounding Pharmacy on Katella in Los Alamitos. Their phone number is 562-431-2308. We will contact them later this morning. The pharmacy should be calling you with the price and shipping / pick-up information. If you do not hear from them by Monday, please call them to check on the status of the medication.

Our plan for Squeaky:

- * Keep on the methimazole gel for another month.
- * Increase the canned food to as much as she wants to eat, but in multiple feedings.
- * If she continues to not gain weight with consistent methimazole treatment, we will add on medication for her intestinal disease (unless we can pursue the ultrasound / endoscopy for intestinal biopsies as previously discussed).

Please call if anyu questions or concerns.

Unless problems, schedule a follow-up in 4 weeks for weight check and blood test (possible add on medication for GI disease)..tnt
